EXAMINER'S SUPPLEMENTAL AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Richard Ruble on April 22, 2004. The application has been amended as follows:

2. The following changes have been made to the application in order to clearly describe the invention and to define the claimed invention over the prior art of record:

Claim 13:

- a) "an innermost edge positioned closest to said free end of said upstanding section, and an outmost edge remote from said innermost edge," lines 11-12, has been replaced with

-- an innermost edge and forming a free end of said first scale such that an implement can be moved against said free end of said first scale, and said supporting surface being substantially flat and positioned directly beneath and along the entire length of said finger-resting surface directly adjacent said upstanding section, and beneath said scale supporting section to permit smooth application of said guiding device on the working surface and said innermost edge of said first scale positioned closest to said free end of said upstanding section, and an outermost edge remote
